

A scuba diver in a black wetsuit and mask is swimming underwater. The background shows a vibrant coral reef with many small, yellowish-green fish. Sunlight rays penetrate the water from the top left.

ADVANCED OPEN WATER DIVER

Continue diving:

ADVANCED OPEN WATER DIVER

Price: 12 990 CZK / 499 EUR

SSI Advanced Open Water diver is next level on your scuba diving journey. You need to finish at least 4 speciality courses and have logged at least 24 open water dives to get AOWD level.

You can pick up any 4 specialty courses you want, this is only our recommendation package from our instructors for special price.

DEEP DIVING

Many exciting dive sites are located in deeper water. Without proper training, this kind of diving puts you at risk. The SSI Deep Diving Specialty will give you the ability to safely and comfortably plan and conduct dives beyond 18 meters, and is a prerequisite for some advanced training. You will earn the SSI Deep Diving Specialty certification for diving up to 40 meters.

NIGHT AND LIMITED VISIBILITY

This program provides the skills and concepts required to safely and comfortably dive at night or in limited visibility conditions. Some of the ocean's most amazing creatures only come out at night, so your dive doesn't have to end when the sun goes down. You will learn how to enter and exit the water, use specialized equipment, and how to communicate and dive with a buddy at night or in limited visibility. You will earn the SSI Night Diving and Limited Visibility Specialty certification after completing this program.

ENRICHED AIR NITROX

The SSI Enriched Air Nitrox program will teach you how to safely plan and dive with enriched air mixtures of up to 40% oxygen. Diving with enriched air can increase your no-decompression limits, increase your safety, and reduce the required length of your surface intervals when compared to air. You will earn the SSI Enriched Air Nitrox 32% or 40% certification after completing this program.

NAVIGATION

This program provides the skills and concepts required to safely and comfortably navigate underwater during a dive. You will learn how to use a compass and natural navigation techniques, estimate distance, basic navigation patterns and how to leave and return to a designated point. You will earn the SSI Navigation Specialty certification after completing this program.

7 reasons to dive with Divers Direct

- Personalized **individual** training - the course opens even for only one student. Maximum is 4 student in a group.
